

Dear Families,

Homework and meeting deadlines is one of our learning habits, here at Dixons Fazakerley Academy. We know that this habit is so important in the future education and careers of our students and we really want to support them in making great progress in this area.

In order to allow this learning habit to reach its full potential we are excited to announce that, starting this academic year, we have a new homework offer. Due to the level of change, we are introducing homework in stages.

When linking our mission: “The academy ensured all students succeeded at university, or a real alternative, thrived in a rewarding career and had a purposeful and happy life.” specifically to homework, research suggests that homework has a positive impact on the progress of secondary school pupils. When homework involves digital technology, this progress has greater impact (an average of +6 months progress). This information has heavily influenced our homework offer and we have decided on three platforms all using the most up to date technology, to give our students the very best learning opportunities. All can be accessed on any internet web browser or device.

More information will follow, in separate letters, as we launch each phase of our homework offer.

As always, we really appreciate your continued support as we strive to support our students on their journey of climbing the mountain to university or a real alternative.

Yours faithfully,

Ms H Zeqaj (Assistant Principal)
